DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I, Claims 1-5, 8-19, and 23-29, drawn to an isolated or purified polynucleotide, a recombinant expression vector, a host cell, and method for producing a polypeptide classified in 435/69.1.

Group II, Claims 6-7, and 20-22, drawn to the human endosulfine and an isolated or purifed polypeptide, classified in 530/350.

The inventions are distinct, each from the other because of the following reasons:

The products of inventions I and II, are distinct each from the other, because they are drawn to products having materially different structures and functions.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their different classifications and recognized divergent subject matter, and the search required for any one of inventions I-II is not required for any other invention I-II, restriction for examination purposes as indicated is proper.

Affirmation of this election must be made by applicant in replying to this Office action.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be

accompanied by a petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
